

contextFree.grammar.GrammarFactory.checkType

```
graph LR; A[contextFree.grammar.GrammarFactory.checkType] --> B[contextFree.grammar.Production.getLeft]
```

A diagram showing a call from the `checkType` method of the `GrammarFactory` class to the `getLeft` method of the `Production` class. The source method is highlighted in a gray box, and the target method is in a white box, connected by a blue arrow.

contextFree.grammar.Production.getLeft
